Neochromes Dynamic is a trademark of Indizen Optical Technologies

TIMES CHANGE,
CHANGE FASTER

PREMIUM PHOTOCHROMIC LENSES

Forget the past, the new photochromic lenses change twice as fast!

New Neochromes Dynamic™ photochromic lenses **fade back to clear more than twice as fast as other**, currently available, photochromic lenses.

Have you ever **complained** about the **slow fade-back speed** of photochromic lenses?

Neochromes Dynamic™ lenses **provide**:

- **Two times faster fade-back speed**
- **More comfort**
- **Better aesthetics**
- **Dynamic vision in every lighting condition**
- **Superior visual acuity**

DON'T GIVE UP YOUR STYLE!

During fade-back, Neochromes Dynamic lenses rapidly shift from dark gray or brown, to totally clear giving you a modern and functional style.

***Change faster, change to
Neochromes Dynamic™.***
